Professional Summary

Junior Software Engineer with backend development experience and a focus on Python, NodeJS, Ruby On Rails and Java. Skilled in writing production-quality code, API integration, and leveraging database management to build scalable solutions. Demonstrates a strong aptitude for debugging, code reviews, and transforming real-world challenges into effective software tools. Committed to enhancing operations and ensuring robust system performance.

Education

Trybe   **Sep 2023**
Full-Stack Web Development
  • **Coursework:** backend, frontend, software engineering, agile methodologies

Universidade do Estado de Minas Gerais (UEMG)
Production Engineering

Professional Experience

LWSA   **Aug 2024 - Jun 2025**
Systems analyst
  • Collaborated with a cross-functional team to identify and resolve issues in ServiceNow, reducing incident tickets from over 100 to fewer than 20 within one week by refining backend processes and client support protocols.
  • Contributed to the migration from a legacy billing system to a modern, scalable platform by enhancing code quality and system reliability, directly improving operational efficiency for the finance department.
  • Designed and implemented new features for billing, invoicing, and subscription management systems, effectively streamlining revenue operations and reducing invoice processing time.
  • Participated in code reviews, debugging, and automated testing to ensure production-quality code and sustained reduction of recurring incidents in billing and subscription modules.

EP Consultoria Junior   **May 2022 - Jul 2022**
Project Manager
  • Directed project team members by setting clear goals, deadlines, and task organization, fostering effective communication between technical and non-technical stakeholders.
  • Contributed to the successful execution of client projects, ensuring that deliverables met required standards and integrated streamlined processes.

EP Consultoria Junior   **Nov 2021 - May 2022**
Project Consultant
  • Executed project assignments within deadlines, aligning deliverables with established goals and operational standards.
  • Collaborated on projects involving process mapping, digital marketing, market research, and lead prospecting, applying analytical methods to optimize project outcomes.

Projects

Recipes App
  • React.js, JavaScript, TailwindCSS.

The Football Club
  • TypeScript, Node.js, Sequelize, MySQL, Express, OOP.

Technical Skills

  • **Languages**: Javascript, Typescript, Ruby, Python, Go, Java
  • **Frameworks**: React, Node, Rails, Vue, Spring Boot
  • **Other Tools**: Git/Github/Gitlab, Docker, Swagger for API, MySQL, HTML, CSS, API Integration

Other Certifications and Courses

  • Fundamentals of Economics and Finance - ANBIMA

Languages

  • English (C1 Advanced - EF Standard English Test.)
  • Potugueses (Brazil) (Native)
